	Status: approved
	Date: February 13, 2012

Policy Statement:

Membership of the Fort Worth Chapter of PMI (FWPMI) has its privileges. While many of our events are open to non-members, the Board reserves the right to limit some events and services exclusively for its members. The Chapter Board will be responsible for making the final decision regarding which events and services are for members only.

The Chapter officers will attempt to find and secure membership benefits including discounts on products and services. The members are our number one priority in this process and we will do our best to make sure that the benefits are those that our members 1) prefer, 2) provide real or perceived value and 3) are appropriate for our large membership base.

Guidelines and conditions:

- The FWPMI Chapter makes no determination of the quality of any offers or discounts from third parties as these are between the service provider and the member taking advantage of the offer.
- Any specific terms or conditions associated with an offer must be disclosed to the member.
- Members must be in good standing to take advantage of members-only privileges.
- The Chapter will make no contracts other than those required by the providers to make such benefits accessible.
